### Professional Summary

Software Engineering student with a strong interest in web (MERN) and mobile (Flutter) development. Improving backend skills and learning AI to build smarter and more scalable solutions.

### Education

<b>Bachelor in Software Engineering</b> - NED University of Engineering & Technology – Karachi, Pakistan	<i>Oct 2022 – Present</i>
<b>Pre-Engineering</b> - Cantt College – Karachi, Pakistan	<i>Jan 2020 – Jan 2022</i>

### Projects

#### StreamSphere(In progress)

Currently working on this project, focused on **Node.js**, gaining in-depth experience with backend development including handling files, images, and videos.

#### Mental Wellness App (Flutter)

Built using Flutter with Firebase for user authentication, the app integrates Monte Carlo decision-based support and an AI-powered chatbot. It features mood-based music, guided meditations, and personalized user profiles to promote self-care.

#### ArtisanHub (MERN)

Built a marketplace platform for artisans with secure checkout and product management. Created SRS and design docs, ensured code quality via SonarQube, and conducted manual testing.

#### Post Submission System (React, Appwrite)

Built a submission system with file upload, create and update functionality using React and Appwrite.

#### TutorLinknet (HTML, CSS, JS, PHP)

Developed an online tutoring platform with user registration and interactive profiles.

#### Portfolio and To-Do List (React)

Created a React-based portfolio and a functional task manager, showcasing component-based design and state handling.

### Internships

<b>Changan Pakistan – Data Analytics Intern</b>	<i>Jul 2025 – Aug 2025</i>
---	----------------------------

Made 5 Power BI dashboards for the Warranty Department's Dealership Management System, which helped the team easily track warranty claims and dealership performance for better decisions.

<b>Karachi Development Authority (KDA) – IT Intern</b>	<i>Jun 2025 – Jul 2025</i>
--	----------------------------

Supported improvements in IT systems and digital processes, making daily work and data access smoother for the department.

<b>DevelopersHub Corporation – MERN Stack Intern (Remote)</b>	<i>Mar 2025 – Apr 2025</i>
---	----------------------------

Worked on MERN stack projects, adding features and improving code quality, which supported the team's development work.

### Extracurricular

<b>IT Director - IEEE PES NEDUET Society</b>	<i>Oct 2024 – Aug 2025</i>
--	----------------------------

Led frontend training for members and conducted UI/UX workshops.

<b>IT Member - NSA NEDUET Society</b>	<i>Dec 2024 – Aug 2025</i>
---------------------------------------	----------------------------

Led a GitHub session at the **National Incubation Center (NIC)** and contributed to NSA's portal development with the IT team.

### Skills and Interests

**Frontend & Full Stack:** HTML, CSS, JavaScript, React, Flutter, Appwrite

**Backend:** Node.js

**Design & Tools:** Figma, Adobe Illustrator

**Databases:** SQL, MongoDB

**Soft Skills:** Teamwork, Creativity, Time Management, Working under pressure

**Certificates:** AI & DS Bootcamp (**AI Club Baithak III**), SQL Intermediate (**DataCamp**), Fundamentals of Power BI (**DataCamp**),

Adobe Illustrator (**Next Dimension**), SQL SAGA (**FAST Competition**), PyCon (**Python Competition – Refiners**), Web Development

Competition (**SENTEC Society**).
