SUMMARY

Passionate Frontend Developer with skills in HTML, CSS, JavaScript, and React. Experienced in UI/UX design, creating smooth and user-friendly interfaces. Currently expanding my skills in the MERN stack by building projects and learning Flutter for mobile app development. Always eager to learn, solve problems, and create useful solutions.

EDUCATION

Bachelor in Software Engineering

NED University of Engineering & Technology

📅 10/2022 - Present   📍 Karachi, Pakistan

Pre-Engineering

Cantt College

📅 01/2020 - 01/2022   📍 Karachi, Pakistan

PROJECTS

SellSphere (in progress)

Developing a scalable e-commerce platform that enables businesses to manage vendors, products, and customers efficiently. Built with Next.js 14, Prisma, and MongoDB, it offers a seamless and feature-rich online marketplace experience.

ArtisianHub (MERN)

Developed an online marketplace for local artisans with user-friendly profiles, product management, shopping cart functionality, and secure checkout, showcasing full-stack web development skills. The project included a comprehensive SRS, design document, code quality evaluation using SonarQube, and detailed manual testing for functionality and reliability.

Post Submission System (React, Appwrite, Vercel)

Built and deployed a post submission system using React and Appwrite, hosted on Vercel.Implemented document creation, update, and file upload features.

TutorLinknet (HTML, CSS, JavaScript, PHP)

Developed an online tutoring platform with user-friendly profiles and registration.

Portfolio and To-Do List (React)

Created a personal portfolio and a to-do list application using React, showcasing skills in component design and state management.

Craftique (Figma)

Designed a craft-focused e-commerce mobile application with an engaging and user-friendly UI/UX.

Shoply Website (Figma)

Designed the UI for the Shoply e-commerce site on Figma, creating a visually appealing and intuitive interface.

CORE SKILLS

- HTML,CSS
- Javascript
- React
- SQL
